

HANGMAN

Introduction:

"Hangman" is a word game with a murderous twist. Can you guess your opponent's secret word before your man is hanged? You'll need to print out the game sheet (which contains enough gallows for four games) and something to write with.

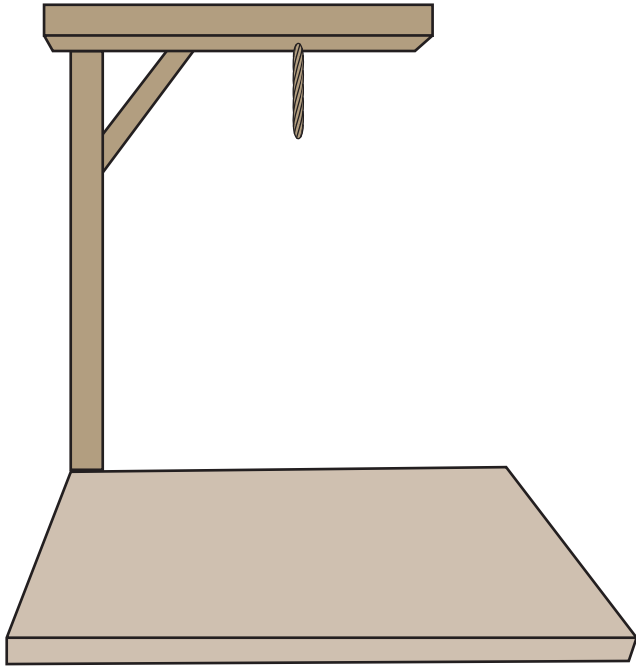

Instructions:

One person thinks of a secret word and writes out dashed lines to represent it underneath a gallows. (For example, "_ _ _ _ _" for "friend".) The other person must try to discover the word by guessing letters. As each letter is guessed, it can be crossed off the alphabet to indicate that it has been used. Correct letters are written on the appropriate dash. For every incorrect letter, another part of the hanging man is drawn. Draw them in this order:

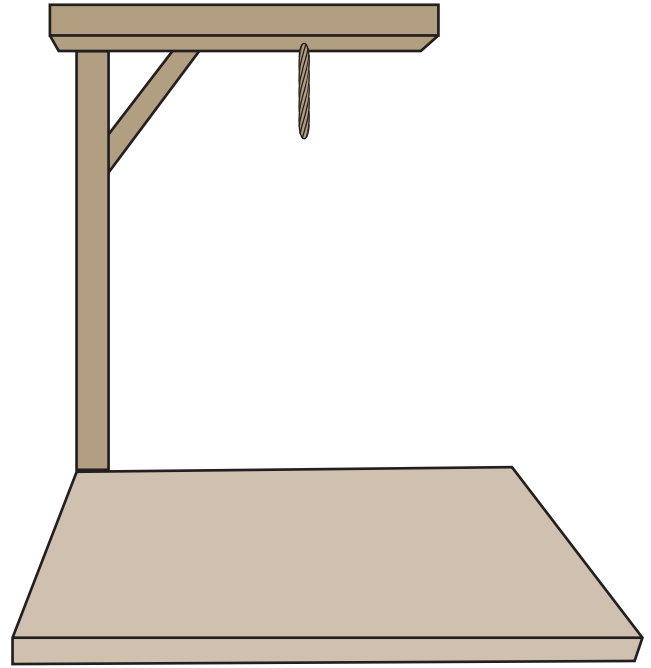

- 1) Head
- 2) Body
- 3) Left arm
- 4) Right arm
- 5) Left leg
- 6) Right leg
- 7) Face

If the guesser discovers the secret word before the face is drawn, he wins!
